BOTH NEIGHBOR
STATES OF ITALY

Had Been Anticipated Vote
On Sanctions Would
Be Unanimous

(BULLETIN)

GENEVA, Oct. 9.—Austria and Hungary, important neighbor states of Italy, today created a sensation in the League of Nations assembly by each voting "no" on the question of application of sanctions against the Italian government.

League diplomats decided unanimity was not necessary for application of sanctions against an aggressor by the league, but it was admitted that the surprise stand of these two nations could put a serious barrier to the carrying out of effective penalties.

The votes of the two states came as a distinct shock to the assembly and a large gallery. It has been expected the assembly would go on record as being unanimously in favor of economic penalties against Italy, and that any states not heartily in favor of applying them would merely abstain from voting.

This procedure would have made technical unanimity possible.

Before casting his sensational vote in opposition to application of sanctions, the Austrian delegate stated that upon orders of his government he wanted to express reassurance of Austria's attachment to the league. However, he said he also wanted to express the sympathy of Austria toward Italy, which, he said, had preserved Austrian integrity.

(International News Service)

GENEVA, Oct. 9.—With speed the order of the day, the League of Nations today rushed toward actual application of economic sanctions against Italy in punishment for the Italian invasion of Ethiopia.

The steering committee of the league assembly met hurriedly and in quick time drew up a line of procedure which eliminated all red tape.

A group of acrobatic youngsters was seen down town last night. They were seen doing a series of back flips, somersaults and various other acrobatic stunts.

Fog was so dense this morning that it was impossible to see from one side of a street to the other, in the downtown areas.

Attracting considerable attention last night while going through town, was an automobile with a door bell attached to it in place of a horn. This system is being adopted in London due to the fact that horns have been banned there because of their loud tones.

One of Pa New's family, during a jaunt in two different sections of the county saw several ringneck pheasants take off. One was at The

CLAIMED CITY TAKEN

(International News Service)

LONDON, Oct. 9.—Italian forces invading Northern Ethiopia have practically surrounded the Ethiopian holy city of Aksum, an exchange telegraph dispatch from the Italian front said today.

Editor's Note: Yesterday the Exchange Telegraph Correspondent with the Italians reported Aksum captured by the Italians. Later he said the report was "premature." Rome reported the city taken, and Addis Ababa said it was evacuated by Ethiopians and "probably" was captured.

Latest reports said Exchange Telegraph, show the Italians are on a road encircling the city, and thus have practically surrounded it. The road was described as being little more than a path and consequently the troops are only lightly equipped. The region is rocky.

A second column was on the march direct from the north, and the road in this direction, although far from being perfect, is practicable for light tanks.

First Hand War News From Ethiopia Scarce

By DAVID P. SENTNER
International News Service Staff
Correspondent

LONDON, Oct. 9.—A mass of conflicting, unconfirmable reports and a dearth of definite, reliable news from the front characterized the Italo-Ethiopian war dispatches received in London today.

Evidence of the scarcity of first-hand war news was the fact that Floyd Gibbons, crack war reporter for International News Service, has been unable to get any news to London headquarters from the Italian

front since Sunday night, when he filed a dispatch on the fall of Adowa. Official news from Rome was equally light. A communique issued today was based on yesterday's activities, which the government said were slight. Apparently the Italians were merely consolidating their positions and making reconnaissance flights over the Ethiopian territory ahead, awaiting new orders before continuing an advance.

News from Addis Ababa was severely censored, but even before the

Reports Conflict On Possession Of Adigrat

(BULLETIN)

(International News Service)

LONDON, Oct. 9.—A strong Ethiopian force staged a counter-attack on Adigrat, northern Ethiopia, Italian correspondents at the front confirmed today, according to Exchange Telegraph, but the natives were repulsed with considerable Abyssinian losses.

LONDON, Oct. 9.—Addis Ababa correspondents of several British newspapers today cabled that Ethiopian forces under Ras Seyum had recaptured Adigrat, which had been in Italian hands since late last week, on Monday.

(In Rome, International News Service was officially informed that the "rumor is absurd.")

O. D. Gallagher, Addis Ababa reporter for the London Daily Express, said that Adigrat was retaken after a surprise attack in the heat of the day, when the Italians were enjoying their siesta.

The fight was short, said the Express. The Abyssinians split up into groups, and attacked the Italians with the greatest stealth and secrecy.

A large number of Italians were taken prisoner, according to the account, but casualties were believed to be few.

Pits Halt Tanks.

Lion pits, deep holes covered with boughs and dirt, again proved effective in dealing with Italian tanks, the Express added, and six more of the mechanical fortresses fell into the pits and were put out of commission.

The London News Chronicle again carried reports today of Ethiopian "successes" in invading Eritrea. The paper said forces dispatched by Ras Seyum were threatening Adi Ugi, a town 25 miles north of the Mareb river, which forms the Eritrean-Ethiopian frontier.

County Commissioners announced this morning that the releases have all been signed up on the Volant road extension, and that everything is in readiness to go ahead with the completion of the road.

State Highway Superintendent John Shaw, stated several days ago that the department is ready to let the contract, as soon as the matter of securing releases had been adjusted.

The section to be improved embraces about half a mile from the end of the present concrete to the bridge at the eastern end of Volant.

That it was not improved at the time the road was built, was due to an error in measurements.

ADDIS ABABA, Oct. 9.—Formal breach of diplomatic relations between Italy and Ethiopia was scheduled for this afternoon, when the Ethiopian government was to hand Count Luigi Vinci-Gigliucci, Italian minister, his passport.

The government decided upon the action after receiving a telegram from its delegation in Geneva, advising there was no further advantage to be gained by postponing the breach in relations.

Count Vinci himself told International News Service he would leave the Ethiopian capital without awaiting instructions from Rome, but added that he would like to await arrival here of the Italian consul at Mogale, now enroute here.

Refugees Leave

One hundred and fifty refugees fought their way to the train leaving for Djibouti today. They battled their way through a noisy, tearful overwrought crowd.

More than 100 British Indians, barbers, small tradesmen, and the like, fled on the train.

Miss Esme Barton, daughter of the British minister, Sir Sydney Barton, two Belgian lieutenants, one Italian consul, and 15 Italian subjects, natives of Eritrea, also departed.

Further tightening of censorship regulations was announced today. Photographing also was restricted, especially along the railroad line. An Italian photographing the railroad station here had his camera confiscated.

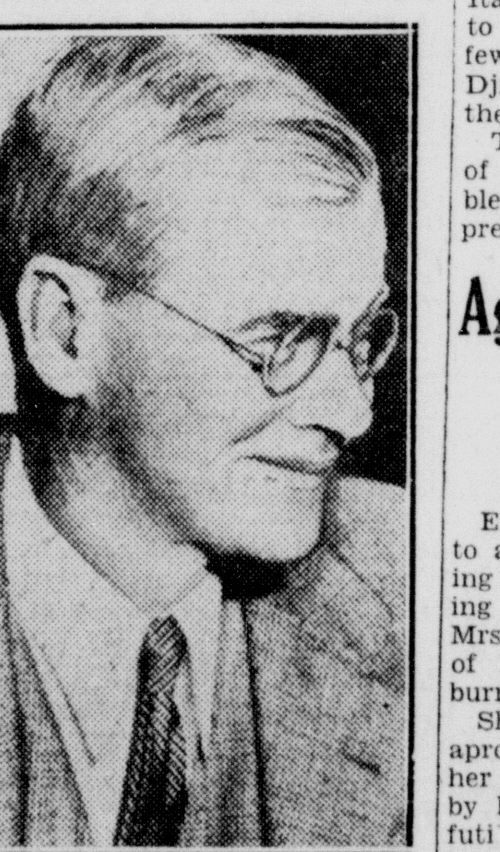

LONDON, Oct. 9.—Belgian officers today were appointed censors of all news filed out of Addis Ababa, according to a Reuters dispatch received here.

Solemnly the 13 black-robed justices of New Jersey's highest tribunal voted to sustain the guilty verdict returned at the "trial of the century" in Flemington on the night of Feb. 13.

In so doing the last chance for another trial for the country's strangest criminal was blocked in this state.

Rome Communique Declares

(BULLETIN)

(International News Service)

ROME, Oct. 9.—Yesterday was quiet along the Italian front in Northern Ethiopia, it was declared in an official government communique—No. 16 on the East African crisis—issued today.

"Yesterday, October 8, was quiet along the whole front except for small patrol actions along the line occupied by native army corps," said the communique.

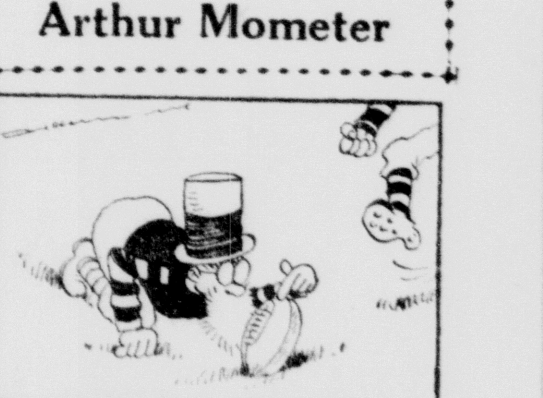

"Aircraft flew to the south of Makale to the source of the Takaze river, but did not observe any enemy concentration in formation."

"In the action in which the 23rd native battalion at Amba Sebat was engaged on the eve of taking Adowa, losses of the Ethiopians were heavy, including a number of chiefs."

"The work of organizing communications with the rear lines is being actively continued."

Says Laurel Boulevard Trees Being Damaged

City Forester Owen Penfield Fox today reported to Councilman Joseph D. Alexander, parks director, that the "night football games" of north hill boys along Laurel boulevard have already cost the city approximately \$500 in damage to newly planted shrubbery and the center lawn.

The boys, Fox reported today, ruined a valuable Chinese elm and a golden willow tree last night. He said the center lawn has been dug up by heavy shoes.

"I don't like to complain against boys playing football, but it's growing to the destructive stage," said Fox. "Valuable shrubbery and trees we have planted has been destroyed already. I have been patrolling the streets many nights to watch for the damage."

The city forester said the gangs congregate after dark on the lawn at the point where the boulevard intersects with Highland and play football under the street light.

Harar Residents Fear Air Raids

(Copyright, 1935, By International News Service)

ADDIS ABABA, Oct. 9.—Continual air raid scares have the population of the city of Harar panicked.

The population fled to the hills several times yesterday as word flashed through the streets that Italian bombing planes were about to lay waste to the city, which is a few miles south of the Addis Ababa-Djibouti railway between here and the coast.

Two of the Harar populace died of heart failure in the mad scramble, and many babies were born prematurely.

Early Session Of Parliament May Be Called

(International News Service)

LONDON, Oct. 9.—Recognizing the gravity of the Italo-Ethiopian war crisis, the British cabinet at an important full session today decided to summon parliament on October 22, a week earlier than usual, should events at Geneva necessitate such action.

The cabinet met for more than two hours in an exhaustive study of the war situation, one of its main tasks being to approve a line of action to be taken by Britain at the League of Nations assembly meeting in Geneva this afternoon.

The cabinet decided to prepare parliament for an early opening after considering a proposal from Major Clement Attlee, new head of the Labor party, urging parliament be hastily summoned to debate the crisis.

Possibility of Britain's raising the arms embargo against Ethiopia, now that Italy formally has been declared the aggressor by the league council, presumably also was discussed.

COMMUNISTS ARE ACCUSED

Demands U. S. Sever Diplomatic Relations With Soviet Russia

BLAME COMMUNISTS FOR STRIKE TROUBLES

By ROBERT MCGILL
International News Service Staff Correspondent
WASHINGTON, Oct. 9.—Charging the communist party is attempting to overthrow the government through a series of industrial strikes, the Veterans of Foreign Wars today demanded the United States sever diplomatic relations with Soviet Russia.

The request was made following a survey of industrial unrest since the recognition of Russia. It was conducted by Victor E. Devereaux, head of the department of Americanism.

Devereaux said department of labor records reveal the fact that the years 1933 and 1934 were the two worst years for strikes in this country. The United States recognized Russia on Nov. 16, 1933.

Gave U. S. Dirty Deal
Declaring that the Soviets gave this country a "dirty deal" and that they failed to live up to their recognition agreement, Devereaux added:

"It is the opinion of the veterans of foreign wars that the nation has paid a dear price for nothing. Instead of receiving anything constructive from the recognition of Soviet Russia, we have, to the contrary, experienced the widest orgy of strikes and mob violence in the United States that we have every known in our entire history."

"From their publications we find that at least the great majority of these strikes and the attendant rioting were inspired, led or aggravated by the communist party or by individuals and organizations affiliated with it."

Devereaux's report also predicted continuous industrial turmoil as long as friendly relations with the Soviets are maintained.

Grand Jury To Probe Mistrial

Wife Of Juror In Dolbow-Driscoll Murder Case Is Held In Jail

WILL NOT EXPLAIN CONTENTS OF NOTE

(International News Service)
SALEM, N. J., Oct. 9.—Grand jury investigation of the trial of Mrs. Margaret Fox Dolbow and Norman Driscoll on charges of slaying the woman's husband—halted by the arrest of a juror's wife for allegedly attempting to pass a note to her husband—loomed today.

Immediate investigation of "influences" and "several other suspicious matters" leading to calling of a new trial January 6, was begun by County Prosecutor W. A. W. Grier following a mistrial order by Judge Frank T. Neutze of Camden. Dramatic arrest of Mrs. Thomas I. Holton whose husband was serving as juror No. 6, halted the sensational murder case scarcely before it had begun here.

Jailed for contempt of court, Mrs. Holton hysterically refused to explain a note supposedly intended for her husband.

decisions in 70 cases before they came to Hauptmann's, "No. 99," at 11:41 a. m.

When he reached number 99, Chancellor Luther A. Campbell, presiding, said:

"The opinion in this case is held by Justice Charles W. Parker." Distinguished Justice Parker announced.

Vote To Affirm

"The opinion leads to affirmation, and I vote to affirm."

Then in level tones, Chancellor Campbell and each of the other judges in turn spoke the fateful words:

"I affirm."

Hauptmann was not present to hear his doom pronounced. He was waiting tensely in his death house cell at the state prison two miles away where he will be executed unless some legal miracle saves him.

Hauptmann's pathetic, loyal wife, Anna, was waiting outside the prison when the news was brought to her. She was staggered.

"I can't believe it," she stammered. "I can't believe it's true."

The slender woman, who had walked bravely out of the courtroom at the night of the conviction never showing a tear in front of the courtroom crowd, broke down. Her blue eyes filled and she sobbed:

"Richard is innocent! Richard is innocent! They must know it!"

Supreme Court Justice Thomas W. Trenchard, trial judge, will impose the death sentence and fix the date of execution after the elapse of two weeks, required by law.

Slight Chance Left

Washington, Oct. 9.—Bruno Richard Hauptmann has a one to 50 chance to win a hearing in the United States Supreme Court, experienced court observers estimated today.

The high court will review his trial and conviction of the murder of the infant son of Col. and Mrs. Charles A. Lindbergh only if it appears that the court of New Jersey denied him the guarantees of the federal constitution.

Seldom does the high court review a murder case. Only occasionally does it reverse the conviction of lower courts, either federal or state.

The alleged kidnapper and murderer of America's most famous baby has 90 days in which to appeal to the high court for a writ of review.

To Inform Hauptmann

Trenton, N. J., Oct. 9.—Bruno Richard Hauptmann will learn either from the lips of his attorney or Col. Mark O. Kimberling, warden at the state prison here, sometime today that the New Jersey court of errors and appeals has ruled he must die for the kidnapping-murder of Charles A. Lindbergh, Jr.

Col. Kimberling was advised of the high court's decision by International News Service this morning.

"As soon as I receive official word I will notify Hauptmann," he said. "It probably will be sometime today because I see no reason for withholding the information from him."

"If Hauptmann's lawyer should come to the prison, I will let him notify him."

censorship was imposed the government had admitted it had only very poor communication with the various fronts.

In the face of these facts, rumors and unverified reports flew thick and fast. London received them all, in one form or another.

In view of the official Ethiopian claim that Ethiopian forces so far have been evacuating border cities to draw the invaders well inland, it was apparent there has been no big conflict to date. All fighting has been confined to skirmishing with small bands of Ethiopians, according to Addis Ababa.

Following is a summary of the various reports reaching here today: Heavy Ethiopian reinforcements are being rushed to the Ogaden front, in southern Ethiopia, to halt an Italian advance from Italian Somaliland (Central News, Addis Ababa).

Ras Seyum, Ethiopian commander in the Adowa-Adigrat sector in the north, has recaptured Adigrat. Daily Express, Addis Ababa, and other London papers. Rome said "rumor absurd."

Ethiopian counter-attack on Adigrat resulted by Italians, Ethiopians suffering heavy losses. (Exchange Telegraph, with Italian army.)

FISHING BOATS ARE WRECKED IN ATLANTIC STORM

down to a watery grave after the twenty-seven men had battled all night in an unsuccessful effort to keep her afloat.

Springs Leak

The Hesperus, attempting to ride out a 40 mile an hour gale off the Cape on Monday night, was tossed ashore on the treacherous sand bars off Highland light—graveyard of many a stout craft.

Twenty-seven men aboard the storm-wrecked fisherman battled through the night in an effort to free the vessel from her perilous position. They succeeded but their success was short-lived. Free of the bar, the Hesperus developed a leak. She began to sink. The fishermen, realizing that their fight to save the ship was hopeless, took to dories.

Five other fishing crafts were sent aground by the storm. One was totally wrecked and her crew rescued by coastguardsmen off No Man's Land, a desolate island off Nantucket.

WAKE UP YOUR LIVER BILE—

Without Calumet—And You'll Jump Out of Bed in the Morning Rain! to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

Laxatives are only makeshifts. A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. See C. 1931 C. M. C.

Mr. Braham gave a splendid address on "Changing Law," telling various phases of the law, unknown to the average citizen, and stressed the fact that the constitution was the desire of the people, for good government. He explained in detail, of the manner in which a lawyer looks up material on a case. An informal discussion ensued.

WOMEN'S WELSH CLUB CHANGES MEETING DATE

It was decided at the district convention sessions held in Niles, O., on Tuesday by the Women's Welsh Clubs of America, that the date for the local branch of that organization will not meet here this evening for the purpose of installing officers, as planned. Instead, it is to be held on Tuesday, November 12, in the Y. W. C. A. International Institute room, which too, will take the place of the regular November meeting on the following Wednesday. This change was made necessary, owing to the fact the installing officer, Mrs. J. F. Pletsch, of Niles, O., will not be able to be here until the coming month. A large attendance is desired, and new members will be given a cordial welcome on this date.

Mrs. Charles Crowl, Mrs. Carl Turner and Mrs. Evan Owens, of this city, represented the local club at the Niles meeting, and have reports to give in detail, at the next assembly of local members. Activities opened in the church at 10 o'clock in the morning, lasting until 12 o'clock noon. Following, a luncheon was served, and sessions were again resumed until 3 p. m. Mrs. Pletsch presided.

Representatives were in attendance from Youngstown, O., Girard, O., Sharon, Farrell, Newton Falls and New Castle.

A short program held attention, with Margaret Hess pleasing with two selections, the first being the "Ninety-first Psalm" written by Mac Dermid and "The Big Brown Bear" by Mana Zucca, with Mrs. Nellie J. Swisher playing her accompaniment. Fun-making games and contests which interested all ages were in charge of Mrs. J. A. Edwards, Mrs. Elmer Kerr and Dorothy Depp that enlivened the hours, the next feature.

Mrs. Nellie Swisher entertained with two selected piano numbers and Miss Hess again appeared on the program with two delightful selections.

Lunch was served at a late hour by the committee in charge, with all appointments predominating, being in keeping with the Hallowe'en motif. Their next holiday party will be held at Christmas time and plans are already being formulated for the occasion.

NAVAL NOTES

By M. L. NIXON
Naval Recruiter, Second
Floor Federal Building

Under the present ship-building program, the United States Navy will be built up to treaty strength by 1942. It is the Navy Department's intention to increase the number of aircraft as necessary to meet the needs of the fleet. When naval aviation is built up to treaty requirements, the navy will require 1,098 naval aviators. There are 806 in active service at the present time. To prepare for this great in-

crease, a new type of naval enlistment has been opened to graduates of recognized universities and collection cadets of the United States Naval Reserve. The three general types of airplanes used on the aircraft carriers today are designated as fighters, (one seater); scouts, (two seaters); and bombers that carry a crew of five or more.

All naval vessels when passing Washington's tomb at Mount Vernon parade the full guard and band, half-mast, colors and toll the ship's bell. When opposite the tomb, taps is sounded on the bugle, guard presents arms, and the officers and men stand at attention.

The luckiest vessel in the United States Navy, next to the Constitution, was the schooner Enterprise. In eight months, during the West-

Indian War against French piracy, this vessel captured six privateers and recaptured eleven American vessels.

The muzzle velocity of the bullet of the American military rifle is 2,700 feet a second. That is at the rate of 1,840 miles an hour.

Serving of refreshments by Mrs. Robert Garland and her committee concluded the program. The table appointments were cleverly arranged by Doris Davidson, which were in keeping with the season.

is every Ethiopian city; also, for that matter, London, Paris, New York, all undefended against AIR-PLANE ATTACK.

Adowa is no more "defenseless" now than she was when Italians were defeated and humiliated there forty years ago. There is a lesson for wise ones that underestimate the airplane in war, some in our Army and Navy included.

IT WILL interest England to know that Italian pilots are good marksmen. Adowa reports, for instance, that the Italian planes were fired upon by the governor's palace. Changed to "except Buckingham Palace," that would have an unpleasant sound.

The first Italian officer killed in the storming of Adowa was buried with full military honors on a high hilltop nearby. Unfortunately, from the bottom of the grave, you cannot enjoy the view.

SOMETHING NEW in war is Mussolini sitting in his office at the Palazzo Venezia in Rome, talking on a short-wave radio telephone, with Gen. Emilio de Bono, his commander-in-chief in Ethiopia. Mussolini should have been photographed as he received the message:

"We have just taken Adowa, where eight thousand of our colonial troops, six thousand of our Italian troops were killed forty years ago and Italy humiliated."

That was a proud moment in Mussolini's life.

After Mussolini gets the news by radio-telephone, he telephones it to the Italian King's summer residence.

ITALY'S "working soldiers," following troops, are building modern roads with rock foundations between conquered Adowa and Addis Ababa, roads strong enough to support heavy army trucks and tanks.

These roads will be cherished by Ethiopians later when they begin buying second-hand, and then new automobiles. They will be probably the first good roads anywhere in Ethiopia.

The streets of Addis Ababa are of mud. Mussolini is following the road building program of his predecessor, Julius Caesar, and other Romans.

DIPLOMATIC representatives of the various countries in Addis Ababa ask this government to prevent Mussolini from bombing the town and then move, regardless of them.

The government of these diplomatic gentlemen, having taken steps against Italy in defense of Ethiopia, should ask their own countries to protect Addis Ababa from bombs.

It is not this country's business to regulate an African war that it did not start. The last war was enough.

LONDON REPORTS one foreign newspaperman in Addis Ababa, killed, others severely beaten by a mob of Ethiopians "staging an anti-foreign demonstration."

Diplomats at Addis Ababa request Mussolini, "please not to drop any bombs on this town while we are here."

The wise thing would be for them to move, regardless of them.

Natives of Ethiopia, according to scientific observer, extremely temperamental, may become more and more temperamental as the airplane progresses.

Temptations Of War Discussed

Will United States Heed Warnings Of Country's Leaders In General War?

PACIFISTS ARE SUFFERERS TOO

Central Press Washington Bureau, 1900 S. street
By CHARLES P. STEWART
Central Press Staff Writer
WASHINGTON, Oct. 9.—Suppose there is another general Old World war and that the United States succeeds in keeping out of it.

Will Uncle Sam's non-participation in the conflict save him from a deal of trouble in its economic backwash? Treasury and commerce department economists say they doubt it, unless extraordinary advance precautions are adopted. Nor are they very certain that human foresight is equal to the task of hitting upon a precautionary program that can be guaranteed to prove effective.

Secretary of Agriculture Henry A. Wallace, indeed, offers a suggestion, in the form of a warning.

If food prices bulge, he reminds farmers that they will be foolish to overextend themselves, as they did during the last war, for a slump inevitably will follow the boom, and again they will find themselves under hopeless obligations.

WHO WILL FOLLOW IT?

Other critics agree that this advice is all right, but they are skeptical that agriculture will pay the slightest attention to it.

In fact, they disbelieve that ANY good advice will be taken, if a boom begins.

Their judgment is that restrictive legislation will be necessary to prevent an orgy of speculation (with a depression sure to follow).

And restrictive legislation will be violently unpopular, with huge profits in sight.

WHAT ARE "MILITARY SUPPLIES"?

The recently enacted neutrality

law doesn't necessarily embargo shipments of anything except actual military supplies, and, except as to out-and-out firearms and munitions, they are not easily definable.

Wheat and meat and many manufactured articles are of military value only indirectly.

Besides, the neutrality law expires March 1.

If a good-sized war is raging by that date, with barrels of money to be made, it may be difficult to get the law re-enacted.

President Roosevelt, to be sure, has declared himself 100 per cent neutral—but so did President Wilson in the campaign of 1916. The United States was in the war a few months later.

DEPRESSION EITHER WAY

However, even if the United States had not entered the war, no economist contends that it would have escaped the post-war depression.

Uncle Sam would have had some billions less of debts to pay, but his economics would have been disorganized, anyway. His production had been built up on a war-time foundation, which fell out from under it.

Other countries, which did not go into the war, suffered as severely from the post-war smash-up as did the belligerents.

Latin America, for example, was economically ruined.

Some of the Latin American republics nominally declared war on the central powers but none DID anything militarily. Some remained neutral throughout. All, however, suffered from the war's effects.

Several have been slower than the belligerents themselves to recover. Brazil, the Argentine, Chile, Peru, Bolivia, Ecuador and Cuba have had economic revolutions, or a plurality of them—war-time backwash in each instance.

A "SUCKER" THE SECOND TIME?

Of course these smaller countries are not comparable to the United States.

Nevertheless they had revolution and discord as a result of a war that they wanted to keep out of.

In North and South America alike the European belligerents borrowed money and have repudiated their obligations. It would seem as if only a "blooming sucker", as confidence men express it, would "bite" a second time.

Yet "con men" say that there are such.

"South America cotton hands get 34 cents a day." Well, ours do that well, too, if they are wage-earners instead of owners.

Post Officers Are Installed

District Deputy Commander Cain, Of Ellwood City, In Charge Of Ceremony

NEW YEAR OF LEGION STARTS

With District Deputy Commander Eddie Cain, of Ellwood City, in charge, installation ceremonies of the Perry S. Gaston Post, American Legion, took place last evening in the Legion Home.

Retiring Commander Ches C. Sweesy thanked the post members for the splendid cooperation given him during the past year, and introduced Mr. Cain, who presided during the installation, after which the new Commander, James E. Moorhead, took his station.

The new post officers who were inducted, were: Commander, James E. Moorhead; Senior vice commander, Dave Tobin; Junior vice commander, Norman P. Nelson; Post finance officer, John D. Kennedy; historian, Ivor V. Davis; Sergeant at Arms, George Slack; Chaplain, Rev. Charles Warren Johnstone; trustees, Ches C. Sweesy, and Clarence A. Patterson.

Commander Moorhead announced the appointment of W. Russell Allen as the new adjutant for the coming year.

AROUND CITY HALL

Police chronology for 24 hours ending at 3:30 p. m. October 8, three arrests on charges as follows: Complaint of wife 1, drunkenness 1 and drunkenness and disorderly conduct 1.

A penalty of four per cent has been placed on delinquent 1935 city taxes and a penalty of five per cent on delinquent 1935 school taxes. Taxes are coming in at a fair rate of speed, according to City Treasurer Louis McClung.

Curfew at 9 p. m. will save the city money in gasoline, oil and tires as cruiser cars nightly previous to blowing of a curfew whistle were forced to make many trips in answer to complaints of damage being done by children.

Detectives found imprints of several shoes of a small size at the Smith drug store which gave them cause to say that boy who stole gum, tobacco and cigars from the store.

Street scraper operated yesterday in North Mercer street, north of Glenmore boulevard. The employees of the streets department were preparing the dirt cartway for winter travel.

Very few clerkships in city hall expire next year, owing to an ordinance passed several years ago which made all terms indefinite providing they were not set by state law.

A big pipe has been placed in the hollow at Blaine street and Park avenue. Though the pipe will drain surface water which flows into the hollow. Each section weighed 8,000 pounds, according to the city engineer.

Mayor Mayne will take his "vacation" in the not far distant future. His "vacation" will consist of one day's hunting. Annually he should be a shotgun and makes life miserable for rabbits.

The stone wall along the Croton avenue hill has begun to show that work was resumed some time ago. Several new sections have been built. When completed it will present a 100 per cent better view than the old wood fence.

Suggestion that a light be placed over the tennis courts in Gaston park in order that boys will leave Wilson avenue carway to play football there is not a bad suggestion.

Proclamations By Governor

Sets Next Two Fridays As Special Observance Days In State

(International News Service)
HARRISBURG, Oct. 9.—Twin proclamations by Gov. George H. Earle had designated the next two Fridays as days of special observance—one in memory of a Revolutionary War hero, the other in recognition of the state's nature life.

The governor called upon Pennsylvanians to observe next Friday, October 11, as General Pulaski Day, in commemoration of the 156th anniversary of the death of Brig. Gen. Casimir Pulaski, who organized Pulaski's Legion in the war for independence and was mortally wounded in the siege of Savannah.

Friday, October 18, was set aside by the governor as Fall Arbor and Bird Day, celebrated each spring and autumn. School children were especially urged by Governor Earle to participate in exercises calling attention to plant and bird life.

"THE UNTOLD STORY" GETS BIGGER AND BETTER

The booklet "The Untold Story" issued by promoters of the \$1.-500,000 bond issue to put New Castle into the electric power business, said this:

"Springfield, Illinois (having a municipal electric power business) saves its people over \$800,000 directly in rates which, with the net profit, gives a net annual gain to the city of over \$1,000,000."

What are the FACTS?

On page 12 of the same booklet "The Untold Story" it will be noted that the total reported annual sales of the Springfield municipal plant are 27,000,000 KWH's.

The 1934 report of the Pennsylvania Power Company shows that its total sales in New Castle were 27,602,219 KWH's—(602,219 more than Springfield) for which it received A TOTAL GROSS REVENUE of only \$833,189.00.

Will "The Untold Story" please explain how a "gain" of "over \$1,000,000" can be made from A TOTAL GROSS INCOME of \$833,189?

"The Untold Story" seems to have been correctly named. Most of the story seems to have been left "untold". Here are the FACTS about Springfield as compared with New Castle.

	Annual Cost of 40 K. W. H. of Electricity Used Monthly	Annual Taxes For General City Purposes On a \$5000 Home	Total
In Springfield	\$22.80	\$49.75	\$72.55
In New Castle	21.60	34.50	56.10

Advantage of the New Castle citizens over Springfield citizen \$16.45

"The Untold Story" of Springfield fails to sell us on the idea of placing an additional mortgage of \$1,500,000 on our homes for the privilege of losing \$16.45 per home annually.

Welcome Given State Baptists By Host Pastor

Message From Dr. C. H.
Heaton Published In
Annual Year Book

In anticipation of the meeting of the Pennsylvania Baptist Convention in New Castle next week Pastor C. H. Heaton recently addressed the following message through the Annual Year Book to the Baptist people of this state.

"We of New Castle look forward with pleasure to the next anniversary of The Pennsylvania Baptist Convention, for I long to see you—that I may be comforted together with you by the mutual faith both of you and me.

"We expect to spare no pains in seeing to it that during your visit here your every comfort is provided for. Our city, its churches, and its homes are open to you. We have you even now in our hearts.

"Besides the First Baptist Church our denomination has in this city the Immanuel Baptist (Weish), the Hungarian Baptist, the German Baptist, and three colored Baptist churches. New Castle is at about the center of the Beaver Baptist Association. A large brotherhood awaits your coming.

"We anticipate your presence a strengthening of the evangelical faith in our community. Our churches have many comrades among the evangelical bodies who hold, defend and propagate many of the common tenets of Christianity. This coming convention should put new heart into us and all our comrades.

"We anticipate a reaffirmation of all our distinctive Baptist principles. Our Baptist fathers gave us not

only an infallible Bible, but a conviction of the competency of the individual soul before God, of the necessity of regeneration before church-membership, of the symbolic nature of the ordinances of the gospel and of the interdependency of the local church. These principles should be secured to us anew, and the coming convention should help to secure them.

"We anticipate a great inspiration for new undertakings in evangelism and missions. We expect the presence and power of the Holy Spirit, the grace and glory of Jesus Christ, and the everlasting benediction of God the Father Almighty."

Parade Plans For Hallowe'en

East Siders Expect To Have
Bigger Celebration Than
Year Ago

Indications that the East Side Hallowe'en celebration planned for October 30 will be larger than last year were shown Tuesday night when the committee held a meeting in the McElroy Garage, on East Washington street.

Chairman Carl W. Hauffer announced that already several bands of the city had said they would be present and that the number of mummies and floats would be larger than last year.

Clyde E. Hennon was elected treasurer of the organization and Miss Zeigler was elected secretary. It was requested during the meeting that all those who intended having floats in the parade get in touch with either Mr. Hennon or Arthur J. Reese.

Another meeting will be held on October 15 at the same place when plans will be furthered for the celebration.

New Study Hours Set For Students

(Special To The News)
NEW WILMINGTON, Oct. 9.—Home won't be what it used to be in residences at Westminster college where students are living, since the new study hours for men have gone into effect.

According to the ruling, landlords must see that men students either study in their rooms or in the library from 2 to 4 in the afternoon and from 7:30 until 10 in the evening. Homes that fail to comply with the ruling will be removed from the preferred lists of men's residences.

Radios belonging to students of home owners are asked to be kept silent during these periods. The rules are designed to give men a fair chance with women, who already have the same study hours set.

While the plan is wholly one of cooperation rather than coercion, the administration of the college expects student grades to take an upward slant if the new rules are properly observed.

Feel Depression Idea Overworked

Grove City Has Difficulty In
Collecting Municipal
Water Plant Bills

(Special To The News)
GROVE CITY, Oct. 9.—Feeling that the "depression" excuse is being overworked by local residents delinquent in the payment of water bills and the per capita school tax, both the boro council and board of education plan drastic steps to collect.

The school board will hold a special meeting Monday, with V. H. Fleck, who was appointed a special delinquent collector. Results have not been satisfactory, a list of the delinquents containing many names of citizens well able to pay the \$5 annual tax. As a result of this failure, the board was forced to add four mills to the property tax last year, with many thousands of dollars of unpaid per capita tax on the books.

Boro council has passed a resolution to shut off service to all patrons who become delinquent in payment of water bills, and will adhere strictly to this policy.

Homecoming At Union On Friday

Township School To Wel-
come Former Students;
Grid Game Feature

PLAN TO RECEIVE MANY VISITORS

Union township high school today was perfecting elaborate plans for its first official "home-coming" on Friday, October 11.

With members of Union's Hi-Y club as its sponsors, the celebration is scheduled to open with class visitations in the morning and continue through the Union-Bessemer football game in the afternoon. All former students of the township building are urged to be present.

All of the morning hours will be turned over to periods of visiting and informal fellowship, those in charge said today. Regular classes will be held to afford former students opportunity to observe new teaching methods.

The afternoon will get under way with an assembly in the gymnasium at 1 o'clock to be followed at 2:15 by the Bessemer-Union game. One of the best grid shows of the season at Union is predicted.

Plans were being prepared to care for 300 visitors at the Union building during the day and planners of the first home-coming said they would be disappointed if attendance drops much below that.

Union high has made rapid strides during the past ten years and now ranks among the best of schools throughout this section of Pennsylvania. The home-coming will appropriately mark the close of a decade of educational growth in Union township.

KANE, Pa., Oct. 9.—The grand jury paved the way yesterday for a quick start of the trial of 17-year-old Nathaniel Moleson, former colored CCC worker, charged with the murder of William Campbell, 42, Kane High school night janitor.

After hearing evidence of county officials and state police, who said they obtained a confession to the crime from Moleson, the grand jury quickly returned an indictment.

Don't Entrust Your Own or Your Family's
Well-Being to Unknown Preparations.

BEFORE you take any preparation you don't know all about, for the relief of headaches; or the pains of rheumatism, neuritis or neuralgia, ask your doctor what he thinks about it—in comparison with Genuine Bayer Aspirin.

We say this because, before the discovery of Bayer Aspirin, most so-called "pain" remedies were advised against by physicians as being bad for the stomach; or, often, for the heart. And the discovery of Bayer Aspirin largely changed medical practice.

Countless thousands of people who have taken Bayer Aspirin year in and out without ill effect, have proved that the medical findings about its safety were correct.

Remember this: Genuine Bayer Aspirin is rated among the fastest methods yet discovered for the relief of headaches and all common pains... and safe for the average person to take regularly.

You can get real Bayer Aspirin at any drug store—simply by never asking for it by the name "aspirin" alone, but always saying BAYER ASPIRIN when you buy.

WOMAN POISONER EXONERATES MATE OF VICTIM

New Turn Taken In Murder Case

Police Say Woman Admits Poisoning Charge In Earlier Case

TWO FAMILIES ARE INVOLVED

(International News Service) MINEOLA, N. Y., Oct. 9.—Mrs. Mary Creighton, the modern Lucrezia Borgia, who admitted yesterday she had given arsenic to Mrs. Ada Applegate in a sordid tragedy involving two families, early today exonerated Everett Applegate, husband of the victim, of all connection with the crime.

District Attorney Martin W. Littleton of Nassau county after questioning the woman for many hours said she told him she had implicated Applegate previously in order to "get even with him" for improper relations he is alleged to have had with her daughter, 15-year-old Ruth Creighton.

Applegate arrested. Applegate was arrested Sunday on a charge of criminal assault, based upon his alleged relations with the girl.

Mrs. Creighton, her husband John and her daughter had been sharing

a bungalow here with Applegate and his young wife since shortly after the couple were acquitted in New York. In 1923 of having poisoned Mrs. Creighton's brother, an invalid, and Creighton's mother. Yesterday, Mrs. Creighton told Littleton that she was guilty of the fatal poisoning of her brother, in spite of her acquittal, but denied guilt in her mother-in-law's case.

The district attorney declared the Creighton woman, who is 36 and extremely unemotional, told him she had decided to poison Mrs. Applegate after learning the latter was responsible for the circulation of rumors concerning the alleged relations between Applegate and Ruth.

The News, By Mail, One Year, \$5.00

On Court House Hill

Sheriff Edward D. Pritchard, has received a subpoena in divorce from the sheriff of Beaver county, to be served on Catherine Dudziak, 1804 Moravia street, in an application for divorce filed in the Beaver county courts by her husband, John Dudziak.

Frank D'Ambrosia of near Portersville, who was at the sheriff's office yesterday told Deputy Sheriff Taylor that he has a "Hermaphrodite" pig. Taylor scratched his head and looked dumb, whereupon D'Ambrosia proceeded to inform him that a hermaphrodite is an animal having the characteristics of both a male and a female. The pig is now five weeks old and has excited a great deal of curiosity in the neighborhood. The phenomenon may occur in the human family and in the lower animals, but is an abnormal and rare condition being a union of two sexes in the same animal, according to Webster's dictionary.

While petitions asking for a split up of some of the more congested voting precincts, of the city have been prepared, it has been found that it will be impossible to have any changes made before the November election, even if it is decided that the precincts are too large. Viewers must be appointed to determine the matter and report of court, both on the advisability of the split up and the dividing lines provided a favorable report is made. The precincts that appear to be too large are first of the eighth ward, where there are 940 registered voters and the first of the fifth ward, where there are 824. The largest precinct in the county is the first of Ellwood where there are 1,253 voters. In Neshannock township one precinct has 773 voters and the second, 777.

the fourth ward has been admitted to probate at the register and recorder's office. After providing for a small trust fund for his daughter, Agnes Scully, the remainder of the estate is to be equally divided among decedent's children, John P. Scully, Mrs. Joseph Baldori, Mrs. Catherine Conner and Mrs. Agnes Scully. Mrs. Catherine Conner is named as executrix.

County Commissioner A. E. Conner reports that about 150 men are now at work on the West Pittsburg road, putting the banks and gutters in shape. Improvement of the road from the former end of the concrete into West Pittsburg was completed this summer. When the present work is finished the road will be in first class shape. An effort will be made later to have the concrete extended across the county bridge over the Beaver until it connects with the New Castle-Wampum road just south of Moravia.

The following candidates have filed nomination papers at the county commissioners office on independent tickets: Edward B. Budzowski, constable, eighth ward. Lige Reynolds, supervisor, Neshannock Twp. Louis C. Walzer, constable, sixth ward; H. A. Grimm, assessor, third

ward; Lew A. Hemphill, assessor, third ward and J. G. Russell, supervisor, Little Beaver township.

Thomas A. and Helen Marciariello have filed preliminary papers in a bill in equity against Paul and Madeline Fazzone and Augustine and Edith Paella. A statement of the matter in controversy will be filed later.

By the will of the late Richard J. Davis, of this city, which has been probated at the register and recorder's office all of his property is left to his wife Mary Virginia Davis, who is also named as executrix.

School Problems Being Discussed

State Teachers And Superintendents Gather At Harrisburg, Pa.

GOVERNOR EARLE LISTED AS SPEAKER

HARRISBURG, Oct. 9.—Problems of modern education, present and future, held the attention of the state's leading teachers and school superintendents as the annual education congress opened here today. Almost 1,000 educators were expected to attend the conference, called by Superintendent of Public Instruction Lester K. Ade, today and tomorrow. The announced topic of discussion was "Recent Educational Trends."

Sessions this afternoon were to consider pre-school and elementary school problems, with tomorrow's discussion centered about high school and adult education needs of the future, Dr. Ade announced. Dr. J. Cayce Morrison, assistant commissioner of education in New York state, was to discuss educational needs revealed by the depression as the visiting speaker at tonight's session. The state superintendent was to be honored at a testimonial dinner tomorrow night at which Gov. George H. Earle was scheduled as the principal speaker.

Pymatuning Dam Down One Foot

Shrinkage Due To Weather And Release Of 40 Million Gallons Daily

In three months and a half since the Pymatuning reservoir reached its high mark of the year at 1004.22, on June 24, the water level had receded exactly a foot today to 1003.22. Dry weather during September, and the dryness of the ground, which absorbs a large share of what

rainfall there has been, has contributed to the decrease in the level. In addition to the failure of normal rainfall there has been released from the reservoir up to 40,000,000 gallons of water daily to maintain a regular flow in the Shenango river.

Considering the amount of water released, the drop in the lake level has been slight, observers feel, and the dropping is likely to cease after the next rainfall. From that time on, the level is expected to rise as the October and November rains occur.

No estimate could be made today as to the amount of water released into the Shenango river during the late summer season, but it is known that several releases weekly have been made for nearly three months, totalling more than 50,000,000 gallons on some days. If the average were but 20,000,000 gallons daily for 90 days, the total water released would equal in the neighborhood of two billion gallons during the past season.

Rains last fall brought the level up sharply, although the reservoir did not at that time occupy such a large area. Since it will require two billion gallons of water to increase the level about a foot, the rise will be less rapid during the coming two months than it was last year.

While no official predictions are available, the possibility that the lake will reach its flow-line level of 1,008 feet during next spring has not been considered out of reach by those who are familiar with the lake's history. A "dry winter" with less than average precipitation, however, would make it unlikely that the reservoir would reach its height next spring.

A & P FOOD STORES

MY NEW YORK By JAS. ASWELL

NEW YORK, Oct. 9.—The Cherry Sisters, or rather two out of the famous quartet, are back in show-biz here. At a night club called The Gay Nineties, which sells nostalgia to patrons over fifty who remember and to patrons under thirty who don't, two of the strangest old ladies in the land gave the management headaches for a week.

Nearly half a century ago four rosy-cheeked girls from the Iowa farm country learned to declaim, with a waving of hands, a shaking of heads, and a crossing of hands to hearts. Their friends said they ought to hire a hall. They did; and their naivete was so appalling that the Cedar Rapids paper wrote them up with irony and gusto.

Oscar Hammerstein saw the story, which had been picked up by the old Sun here, and wired them to come and work for him. Their success is history; they were probably the first actresses ever to make a huge success not in spite of a disreputable and amateurishness, but because of these qualities. Cabbages and tomatoes rained on the slightly astonished but humorously hard-working girls. And dollars rained on Mr. Hammerstein's box-office. For many years along Broadway there has been a whisper that the Cherry Sisters were not as dumb as they succeeded in appearing; it was all, said the wisecracks, a clever publicity stunt.

But I have seen two of the Cherry Sisters in their 1935 versions and I can testify that they feign nothing. When they say that Sally Rand is the greatest menace in American life they mean it, and when they recite "Cherries ripe, cherries red, Cherry's snow is still ahead," they have real tears in their eyes.

The management of The Gay Nineties has not confessed to the press that it is a bit relieved at the expiration of the Cherry Sisters' engagement, which brought the business but other problems too. The first night, for example, Effie and Addie insisted that they be allowed to deliver a lecture on temperance to the ringside tables, in lieu of entertainment. And they held out for days in a demand that no liquor or cigarettes be sold in the cabaret during their association with the place.

"Newspapermen," said Effie, "are wicked people. They have written many untrue, many malicious things about us. But I may run for senator of the United States and then I can put them in their place."

The collapse of vaudeville has thrown out of work not only scores of "comedy teams" and "dance stylists," acrobats and hoofers, but

also those immemorial showmen, the magicians. There is a definite glut of the sleight-of-hand market at the moment.

One expert at legerdemain explained to me the other day that he is making money, real money, for the first time in five or six years—the vaudeville circle had been returning more and more meagre dividends in the years of its decline. This man no longer mounts a stage to pull rabbits out of hats and make goldfish and canary birds disappear.

Instead he tours the women's clubs and colleges of the land, giving lessons in magic. "Ten years ago I'd have been called hard names for telling the secrets of the craft," he said. "But now the other boys realize that even magicians must eat."

The lecturer's hour was in charge of Fred Knoll, and later in the pro-

PUBLIC TO SEE LEGION'S BAND IN 'SHOW BOAT'

A snappy military overture by the band of the Perry C. Gaston post of the American Legion will be the curtain-raiser for the Kiwanis club's benefit musical revenue "Show Boat" to be produced by the cast of 700 at the Cathedral on the nights of October 17 and 18.

"Music will be a big feature of our show," Director William Martin pointed out today. "The playing of the Legion band will be only a part of it."

At one point 150 Negro voices will be heard in a southern plantation scene and in another part of the show 300 New Castle girls are to dance across the stage in a musical number. The old-fashioned minstrel show is one part that will bring scores of well-known local men before the audience.

Rehearsals for the show are progressing nightly.

Washington High Is Big Hurdle For "Red Hurricanes"

New Castle's Undeclared Record In Danger Friday Night

Zadworney Is Big Star For Washington, Donegan And Engs Groomed

There is a great big hurdle in front of the New Castle High School "Red Hurricanes" football team this week. If the Bridenbaughs can jump this barrier successfully, the path to another Class AA championship may not be such a long rough one. Washington High is the team in mention. The game at Taggart Stadium under the lights should be one of the best of the season.

At the present time New Castle and Washington are fighting for the leadership in Class AA conference. Neither team has been defeated yet. Barring a scoreless deadlock or some other unforeseen business, one of the two teams must go down to defeat this week, leaving the other team to make further progress along the lines of endeavor.

Donegan And Engs
Head Coach Phil Bridenbaugh is grooming his two clever halfbacks Eddie Donegan and Robert "Flash" Engs this week with the idea being to have the boys present another show like that staged at Johnston last Saturday. Leroy Cox is mending rapidly and will more than likely get back into action this week. DeCaprio and Komic have handled the fullback work very satisfactorily, and they will continue to alternate at this spot.

The line that started the Johnston game will no doubt be used against Washington. Krezo seems to have earned an end job by his splendid work and Harry "Kaiser" Toscano is a fixture at the other end of the line. The two big tackles Crisci and Probst played a whale game at Johnston and can be counted upon this week to come through with another fine game.

Watch Zadworney
Dal Mumford and his educated toe will be in the quarterback. This youngster has been kicking them far, wide and handsome this season his work in the Warren game being especially effective.

Coach Bill Cox will no doubt spend many hours with the "Little Presidents" this week. He has scouted New Castle every game this year, he is determined to upset a New Castle High team and thinks that this is the year to do it.

A victory over any Bridenbaugh team is a most notable event. There have been very few of these to brag about.

The game here this week looks like a big event at the present time. Washington High always puts out a strong team and this year is no exception. Zadworney is the boy in the Washington backfield who

will bear watching. He scored three touchdowns against the Bradock team, the other eve.

In event of good weather one of the largest crowds of the year will no doubt jam into Taggart Stadium. A New Castle-Washington High game generally "picks them in."

Washington Will Send Crowd Here

"Beat New Castle" Is Slogan In Washington, Pa., This Week

Faculty Manager Ralph H. Gardner of senior high today announced that in a telephone conversation with Principal Boyle of the Washington, Pa., high school, he was informed that the Washington high team will be followed by a crowd of about 1,500 to 2,000 here Friday night for the big football game.

Never in the history of Washington, Pa., has a game struck the fancy of the fans. They feel in the "air" that this is the year the Little Presidents upset the New Castle apple-cart.

The Washington high band of 75 pieces will arrive here early Friday night and will join with the New Castle high band of 80 pieces in furnishing snappy tunes for the game.

The Washington football team will arrive here early on Friday afternoon and headquarter at a local hotel.

Church Duckpin League Proposed

A proposal to organize a New Castle Church duckpin bowling league will be taken up for discussion Thursday at the "Y" at 8 o'clock, with Charles P. "Bugs" Walter in charge of the meeting.

It is proposed to have a six-team league. This is a popular winter pastime and would create a lot of keen friendly rivalry during the winter months. Representatives of every church in New Castle desiring to enter a five-man team, is invited to attend the meeting at the Y. M. C. A. At the present time the First Christians have a team lined up, also the First P. church, and the Third P. church.

Shenango High Ready For Mercer

Despite the fact that the game is three days away, Shenango high school football team is prepared for its next game, Mercer high, Friday afternoon on the Shenango high field. The game will start at 3:15 o'clock.

Coach Phelps stated today that his squad is in the peak of condition. The East New Castle eleven will be out to top R. Ringer, J. Rhodes and Furey, Mercer high backs.

Collins Will Stay At First For Cardinals

Branch Rickey Wants Hubbell And Schumaker For Collins

THINKS DETROIT WILL WIN AGAIN

By DAVIS J. WALSH
International News Service Sports Editor

NEW YORK, Oct. 9.—Far from being permanently affected by the disquieting, almost incredible manner in which they played some of those losing games in the world series, the Chicago Cubs will be harder than ever to beat now, in the opinion of Branch Rickey, the betman of the St. Louis human carrier system.

Outside was madness. The windows rattled and roared with the violence of a city that was celebrating Detroit's first world's championship but, unheeding, Rickey's platoon quietly to say that the Tigers could and possibly would repeat in the American League, but that the going would be tougher, much tougher, next time.

As for his own club, he intimated vast and even disconcerting changes, although at the mention of this writer's story about Dizzy Dean being traded to the Chicago Cubs, or elsewhere, he was pleased to smile. Yet only the day before I had learned from other sources that either Dean will go, or others must.

Can't Have Collins

The New York Giants, he dismissed almost patronizingly. "We are not figuring much on the Giants next year," he said. "Terry knows that he has to do things with his club but I suspect he doesn't know how many. He talked to us about Rip Collins and I told him he could have Collins for Schumacher and Hubbell. I also told Terry he could have Collins for himself, even up."

Paraphrasing and in other words, the Giants can't have Collins. "The Cubs," Rickey went on, "need only a little more pitching. Outside of that, those kid players will be better for the hitting they took here. Galan swings at anything he can see. He'll get over that. Cavarretta will come on, too, with Hack, Demaree, O'Dea and Bill Lee, the pitcher, showing natural improvement. Yes, it's the Cubs we'll have to beat."

Strong Outfield

His statement was not necessarily surprising in its purport, merely in the time and place it was made. It was the last night of a series that saw the Cubs that afternoon top off some very singular behavior through six games by having Cavarretta and Herman both run away in opposite directions from a ball hit between first and second.

"The series was a loss and lost in the outfield," Rickey said, quietly. "The Tigers were supposed to be at a disadvantage there. Actually, their outfield hitters stood up and the Cubs didn't. The rest of it was poise, steadiness, experience. The Cubs had none of these, the Tigers all. They are a good club and will need not too much tinkering. Anyhow, one thing is clear. Cochrane has done a great job."

Alumni Team To Play North Hill School Thursday

Thursday afternoon at 4:15 o'clock at the Washington high field, the Alumni of the George Washington school will play the 1935 Washington high gridgers.

COLLEGE GRID NOTES IN BRIEF

(International News Service)

PITTSBURGH, Oct. 9.—The fair-haired boy of the Philadelphia Eagles, here for a return engagement tonight against the Pirate gridgers, is none other than Izzy Weinstock, slashing ex-Pitt fullback. Izzy has attracted many loyal followers in Philadelphia by his general field mechanics and his popularity is eclipsing even the fan-fare interest in "Sing-Sing" Pitts, teammate.

So long as they continue at their present burning pace, the defending champions in the state's scholastic conference need have no fear of dethronement despite the consistently winning football played by Easton, Allentown, Plymouth, and Wilkes-Barre in the east and Winder, Tyrone, Lock Haven and Lewis-ton in the western division. Altoona, western titlists, and Bethlehem, eastern rulers, backed their reigns with more overwhelming victories, the former defeating Westmont and Bethlehem taking the measure of Harrisburg.

Six-foot Sherman Ackerman, holding down a position on W. & J.'s simon-pure varsity, hails all the way from Argentina and didn't know what football was until he came to America in 1932.

The Allegheny Mountain association division of the A. A. Chicago Players Scamper For Home

(International News Service)
CHICAGO, Oct. 9.—All that was left of the 1935 Chicago Cubs today was a stack of forwarding addresses.

Home-Coming Day At Union High, First Battle At Home This Year

Bessemer High Will Be Strong, Winner May Take County Title

In the event of good weather Union high football field will see the largest crowd in the past several years Friday afternoon when Head Coach Davey Boyd sends his Union high gridgers out to do battle with the Fredericks coached eleven from Bessemer. The game is being billed as "Home Coming" day for the Union grads.

The kickoff at 2:30 o'clock should find two highly trained high school football teams ready for the contest that may decide the Lawrence county high school class A championship.

Bessemer and Union are ancient rivals and a close hard fought battle is almost bound to occur. Both teams have been defeated this year. Both have a few victories to their credit.

In Fine Shape.

The Union high squad is in good shape as a result of the rest last week. The cripples have all recovered and will be ready for Bessemer. Captain Rudesill has been shifted to the line from the fullback post and his job will be taken by young Joe Wotowitz, and he is doing a good job of fullbacking. This is his first year of football. Wotowitz is adept at passing, punting and hitting the line. Ammerella, Eve and Denny are the other starters in the backfield. The line will have in addition to Rudesill, King, Kenahan, Patterson, Fulton, Kelly and Taylor. Faculty Manager Burkhardt is making arrangements to handle one of the biggest crowds that ever witnessed a grid game at Union high.

"THE STYLE & QUALITY STORE FOR MEN"

NEW CASTLE, PA.

Strange Head-Fellows. They're All in the Same Hat!

We have a certain hat style that hundreds of New Castle men ought to hear about. It's brown or gray or green or in mixtures. It's a snap brim that's at home wherever men hang out or hats hang up.

If 100 men try it on - - - 99 will keep it on. It becomes all men like their own eyebrows and we mention it today because yesterday we saw on Washington street at least 25 men who looked a little seedy above the hair line.

Could it be you?

Will Enlarge Navin Field

Detroit Magnates Find Ball
Park Is Too Small For
Series Crowds

PLAYERS GIVE BRIEF SPEECHES

(International News Service)
DETROIT, Oct. 9.—Plans for
expanding \$500,000 to enlarge Navin
field, home of the champion
Detroit Tigers, disclosed to-
day as many belated "hangover"
stories of the 1935 world series were
recounted.

Owner Frank J. Navin, in an-
nouncing the expansion program
at a victory dinner for the Tigers
attended by 800 "guests" who paid
\$5 a plate, said between 10,000 and
12,000 seats would be added to the
ball park. It will give the field a
normal seating capacity of about
40,000 and a world series capacity of
about 60,000.

Navin also suggested to the auto-
mobile magnates at the dinner that
they might figure out some way to
crowd 300,000 persons into 50,000
seats, the problem he was faced with
during the series that ended Mon-
day.

Fox Declines
All of the Tigers and their bat
boy were called upon to make
speeches at the victory celebration.
Pete Fox declined, and Marv Owen
followed through by saying "if Pete
Fox who hit .365 in the series won't
talk who am I who hit only .050 to
go popping off?" Goose Goslin, who
hit the single in the ninth inning
of the sixth game to defeat the Chi-
cago Cubs, praised Mickey Cochrane
as "a great manager with a great
knack for handling men."

Apparently, 34 voters who march-
ed to the polls yesterday in a pri-
mary elections, thought so, too.
They wrote in Mickey's name as a
candidate for council, but city elec-
tion officials pointed out that
"write-ins" were outlawed at pri-
maries.

and around 15 years old.

The DeHart "lighties" will seek
the midget championship of New
Castle this year. Games are wanted
for Thursday afternoon. No games
will be booked for Sundays. For
game cards write to Tom Farrow at 801

Utilities Lead Market Upturn

Traders Continue Nervous Over Ethiopian Situation, Is Report

(International News Service)
NEW YORK, Oct. 9.—Strength in utilities bolstered the stock market today as traders continued nervous over the Ethiopian outlook.

Improvement in utilities which was led by Consolidated Gas was due to the electric power report showing record output exceeding even the 1929 high.

U. S. Steel and Bethlehem as well as other industrial shares were dull. General Motors and Chrysler opened easier but later firmed.

In the metal shares Anaconda and American Smelting worked slightly higher.

Bulls were dull as Atchafalaya, Pacific and Pennsylvania worked fractionally lower.

Allied Chemical gained more than a point, while National Biscuit weakness unsettled the food shares. Liquors, oils, building and specialty shares were mixed.

Curtailement Of Federal Revenue New Suggestion

(International News Service)
PHILADELPHIA, Oct. 9.—Demand for curtailment of federal revenue as the "only way to stop government spending" had been made today before the Philadelphia Board of Trade by Gov. Eugene Talmadge of Georgia.

Talmadge blasted New Deal policies as an encroachment on private business and urged repeal of the 16th amendment permitting taxing incomes as a means of depleting federal resources.

Declaring "Communism" won the last Democratic presidential nomination and that the present administration is "the greatest enemy of labor that American has ever known" he predicted AAA measures would be found unconstitutional by the supreme court and added:

"When the supreme court gets through with the brain trusters we will go back to America before Christmas."

Number 1 Policeman Gets Much Jostling From Fellow Cops

(International News Service)
PHILADELPHIA, Oct. 9.—Hugh J. McElvaney, 43, has been Philadelphia's "Number 1 Cop" for the last 13 years and is getting tired of the jokes about it.

He wears the lowest badge number and doesn't know "whether to feel sore or proud about it," he explained.

"It makes you feel good to have other people point you out," he said, "but I get an awful lot of jostling from the other cops. One of the pet jokes around our station house is how I ever got so smart as to be number one man."

Even the dignity of the law pauses when McElvaney appears in court. Magistrates and judges take time out to comment, "Well, I see we have the number one policeman here today."

McElvaney served eight years in the army and saw army service in Mexico and in the World War before joining the police force.

Homecoming At Thiel Saturday

Program Being Prepared At Greenville For Alumni And Students

(Special To The News)
GREENVILLE, Oct. 9.—Indications are that a record crowd will be on the Thiel college campus Saturday to participate in the homecoming activities.

The program for the occasion will start at eight o'clock on Friday evening and extend to midnight on Saturday. The principal event is Thiel's opening football game with Clarion State Teachers college which will be played in Packard park two-thirds on Saturday, followed by an all-college parade of band, floats, students, and alumni. Judging from the fine exhibition of football played by Clarion against Allegheny last Saturday this homecoming contest promises to be full of thrills.

Other features on the program are the Convocation exercises to be held in the college chapel on Friday evening at eight o'clock, at which time Thiel students with scholastic achievement will be honored. After the Convocation exercises there will be a bonfire pep meeting on the athletic field.

Saturday events other than the football game are: a cafeteria luncheon for all alumni in Ridge way Commons at twelve o'clock noon, and the Varsity T dance in the gym beginning at eight-thirty in the evening.

Don't Spread On Powder Too Thick

Also Go Slow On The Lip Stick If You Want To Hold Your Man, Is Advice

(International News Service)
PHILADELPHIA, Oct. 9.—Beware of too much make-up and of powdering your nose in public, girls, if you want to hold your man.

Answering a questionnaire on "What do you like in your girl friends?", collegians at the University of Pennsylvania revealed men abominate too much of the color red, whether it be lip rouge or nail polish, and dislike a girl who combs her hair or who "makes-up" in public.

Brains count for a lot, according to the answers, and girls that are "smart" rather than just "pretty" are much in demand. But the collegian doesn't want that intelligence to "attack him"—he prefers modesty even in the matter of brains.

As for clothes, he prefers "the svelte" rather than the fluffy evening gown, and admires the long-sleeved, semi-formal cocktail dress best of all.

In rural sections, the great aids to virtue are contact with nature, simple living and watchful neighbors.

How do you get a chance at the championship? Well, first you must prove your ability to draw a crowd.

Shelby Donated Money To Purchase Votes Is Charged

Public Service Commissioner Charged With Aiding Judge Hudson

(International News Service)
HARRISBURG, Oct. 9.—Public Service Commissioner S. Ray Shelby contributed \$2,000 in 1927 to a fund used to "buy votes" for President Judge Thomas H. Hudson of Fayette county, a witness testified here today at a further hearing on charges that the jurist filed excessive and irregular campaign expenditures.

Shelby's contribution, according to George P. Baluh, former Fayette mine company employee now working for the federal government in Washington, was part of \$4,500 spent in the November, 1927 contest to buy votes at the polls in one precinct for Judge Hudson.

Shelby will probably be called before Margiotti at a special hearing Saturday to testify concerning the charges. He is hearing cases in Pittsburgh today and is scheduled to be there all week.

Baluh said he paid \$25 and \$30 per vote to "carry" his precinct.

"Mr. Shelby gave me four packs of \$500 each and told me: 'Go out and do your stuff!'" Baluh testified before Attorney General Charles J. Margiotti, presiding at the hearing.

"Did you do your stuff?" Margiotti asked.

"Yes sir—we did everything but kill grandmother," Baluh replied.

Three Colored Men Placed Under Arrest

Two Charged With Larceny Of Jackets; Third With Aiding Plans

John Branch and Charles C. Green, both of Akron, and Tom Hill, this city, all colored, were arrested this morning by Patrolman John Young in South Beaver street. The former two were charged with larceny of jackets from Sears-Roebuck Co., and Hill was charged with suspicion. According to Chief of Detectives W. G. McMullen, Hill is alleged to have participated in the plans for the larceny of the suede jackets. Green, according to McMullen, is also wanted at Akron, O., on a charge of cutting his wife.

BOTH NATIONS VOTE AGAINST SANCTIONS MOVE

(Continued From Page One)
and cleared the way for a speedy assembly vote on the sanctions issue.

The steering committee decided the assembly's committee to coordinate application of sanctions against Italy should be composed of 24 members, which will include all members of the council and those nations principally interested, such as states bordering Italy.

On Committee.

In addition to the council members, the countries chosen to take part on the committee are Austria, Switzerland, Yugoslavia, Belgium, Holland, Sweden, Greece, Persia, Venezuela, Union of South Africa and Czechoslovakia.

The 13 members of the council are Great Britain, France, Argentina, Australia, Chile, Denmark, Ecuador, Poland, Portugal, Rumania, Spain, Turkey and Russia.

The steering committee decided that representatives of league powers which wished to either formulate reservations to their approval of sanctions or to abstain from voting should speak, as had been scheduled, but that representatives of those nations in agreement with the vote of the council, which on Monday approved sanctions, might keep silent.

Such silence would automatically be interpreted as acquiescence.

Some nations are not anxious to go on record with a vote against Italy. It was presumed these nations would abstain from voting, as required, providing, of course, there is no negative vote other than Italy's.

The steering committee also decided that the committee which is to co-ordinate application of sanctions once they are approved should include all members of the council as well as other powers principally interested in the case, such as border states.

The position of Switzerland, traditionally neutral, remained doubtful. President Giuseppe Motta already has stated he possibly would join in the work of the coordinating committee, even though his country has much trade with Italy and is considered to be one of the most interested parties.

MAYOR MCNAIR WON'T FURNISH FALSE TEETH

(International News Service)
PITTSBURGH, Oct. 9.—When it comes to teeth, Mayor William N. McNair passes the buck.

Sitting in his new "office," the corridor of the second floor of the city-county building, hizzoner was approached by Joe Romano, who it seemed, had a wife badly in need of false teeth.

However, the mayor refused to be high-pressed.

"We're a million dollars in the hole right now and you want me to buy false teeth for your wife," he said. "You go see council and tell them to set the tax levy."

Romano, indignant by this time, argued: "Mr. Mayor, I think you're passing the buck."

By this time the mayor also got indignant and after a few words of his choice Italian, Romano departed.

Italian Press Attacks Policy Of Uncle Sam

Controlled Press In Statement Attempts To Cast Ridicule On U. S. Action

By HUDSON HAWLEY
International News Service Staff Correspondent

ROME, Oct. 9.—The government-controlled Italian press today bitterly attacked the policy of the United States regarding the Italo-Ethiopian war, suggesting it has been influenced by Great Britain.

For many weeks now the Italian press has been attacking the stand of Great Britain on the East African crisis, but until now has largely refrained from commenting upon the position of the United States.

Regarding the Monday statement of Secretary of State Cordell Hull, in which he said President Roosevelt made his neutrality proclamation entirely on his own initiative, the newspaper Tribuna commented ironically that he was "excusing himself for something he has not done."

The paper cast ridicule on the statement the United States was acting solely on its own initiative, implying there was significance in the visits of Ray Atherton, counselor of the American embassy in London, to Sir Samuel Hoare, foreign minister, and the visits of Sir Ronald Lindsay, British ambassador, to the Department of State in Washington.

It isn't hard to succeed. Most people fail by trying to win the heavyweight championship with lightweight equipment.

Waterway Plans Are Progressing

Basic Structure Of Mississippi Locks Completed

(International News Service)

WASHINGTON, Oct. 9.—Basic structure of practically all locks and dams in the \$98,500,000 program for the Mississippi river new waterway has been completed, the army corps of engineers reported to PWA today.

The entire program, designed to make a deep seat waterway from the lakes to the gulf, and a six foot shipping channel on the Mississippi to the Twin Cities of Minnesota, is three-quarters complete.

Seven dams and 13 locks now under construction between Fountain City, Wis., and St. Paul and Minneapolis will insure a six foot minimum depth on the river throughout the year. Most of this work will be completed this year. The last work provided under the \$98,500,000 allotment will be completed by 1937, but other allotments are anticipated to complete the entire river program by 1940.

In addition to the lakes-to-gulf, and Twin Cities waterways, navigation will be provided on the Missouri up to Sioux City, Iowa, and on the Ohio to Pittsburgh. Employment was provided for 58,000 men on the river program, which includes not only deepening the channels but flood control.

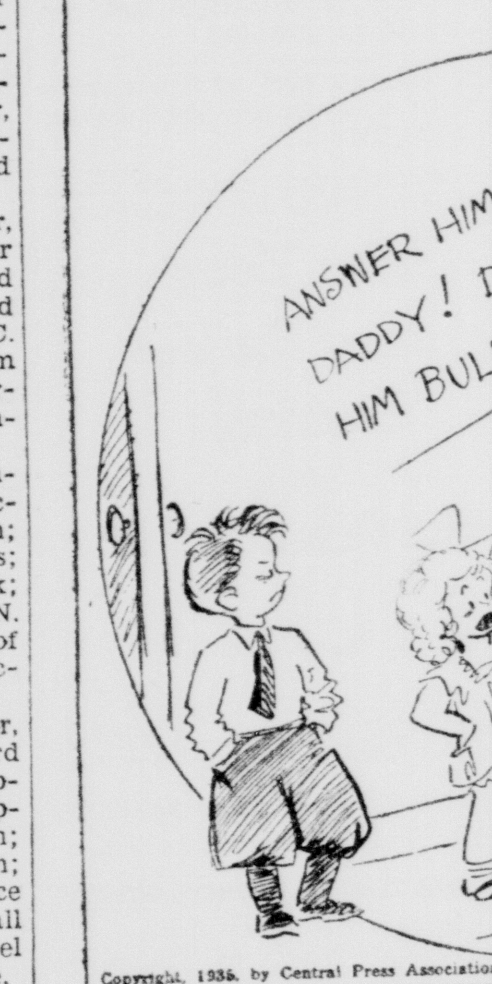

Mussolini's idea isn't new. It's just the usual scheme to divide the wealth accumulated by somebody else.

LITTLE ORPHAN ANNIE: Dream On

Zenge On Trial For Mutilation Of Doctor Bauer

Chicago Courtroom Will
Hear Tangled Story Of
Missouri Romance

(International News Service)
CHICAGO, Oct. 9.—A tragic romance begun in the old Mark Twain country along the Missouri shores of the Mississippi will be unfolded in the bleak reality of the courtroom today.
Mandeville W. Zenge, dour young carpenter of Canton, Mo., entangled in an involved web of circumstantial evidence, will hear the state demand that he pay with his life for the mutilation murder of Dr. Walter J. Bauer, his successful love rival.
The state's star witness is pretty Louis Schaefer Bauer, courted by Zenge for ten years, and now asked to help send him to the electric chair.
The pretty nurse eloped with Dr. Bauer two days before she was to have married Zenge. But a few hours before her elopement Zenge is said to have visited her, shown her the wedding ring, made final plans for the ceremony.

Controversy On Working Hours

Labor Difficulty Confronts W.
P. A., Officials Over Num-
ber Of Hours

Labor difficulties arose today in the Works Progress Administration over the working hours of the workers on the projects. The bone of contention amounts to ten hours per month, the men demanding a 120-hour month while the rules of the WPA call for a 130-hour month.
Early today a group of workers called upon J. Vale Downie, director of district 14 WPA, and said that they would not work the 6½-hour day required but wanted to work a six-hour day. They based their argument upon the fact that sometime ago it was stated that the hours for common labor had been cut from 140 per month to 120.
At the time of the decrease in

hours a wage increase of ten per cent was granted common labor and skilled labor was raised to the prevailing rate, their hours being cut to make the rate possible and still remain at the \$75 per month level. Common labor was raised to \$57.20 per month.
The statement that the monthly total of hours was to be 120 was in error, according to J. Vale Downie, director. The total is 130, he said. This is divided into two pay periods of 65 hours each, which means ten days at 6½ hours per day.
The committee meeting with Mr. Downie today said that they were prepared to call a strike on two projects today unless their hours were cut to six per day instead of 6½. To this Mr. Downie replied that the projects in this district would operate under the rules, 130 hours per month.
"I have no alternative in the matter," said Mr. Downie. "We are endeavoring to provide works projects for the unemployed and our instructions are to work the projects 130 hours per month. Until those instructions are changed by Harrisburg they will not be changed here."

Transportation Of Workers Is Problem

Getting Highway Workers T
Jobs Provides Big Prob-
lem For W. P. A.

With hundreds of men to be called to highway projects in the county the matter of transportation has become a problem with the Works Projects Administration, which it is hoped will be adjusted within a day or two.
Men who reside in New Castle and are called to projects in the county have no way of reaching their posts and it is the intention of the WPA to provide transportation if this can be arranged.
Under the rules of the WPA an allowance of three cents per man mile is made for transportation and a ruling of Attorney General Charles J. Margiotti removes the necessity of a certificate of public convenience for passenger hauling, where men are hauled to works projects.
A meeting has been called for Thursday morning at ten o'clock in the office of J. Vale Downie, director of district 14 WPA, at which a number of truckers will attend. At this meeting it is hoped that the matter can be adjusted and the transportation provided.
The hardest part of the nurse's job is to act as if she gives a darn about the patient.

Dr. F. G. Sayers To Be Speaker At Convention

Pastor Of Baptist Temple
Of Rochester, N. Y., Will
Be Heard Here

DR. FRANK G. SAYERS

Principal speaker at the annual Pennsylvania Baptist convention which is to be held in New Castle on October 15, 16 and 17, will be the Rev. Frank G. Sayers, D.D., pastor of the Baptist Temple of Rochester, N. Y., a three million dollar combination church and office building located in the heart of the city.
Dr. Sayers is to speak at the closing session on October 17.
Dr. Sayers was born and received his early education in London, England. He came to the United States to enter business with a world famous packing industry at Chicago. For six years he served that concern in the northwestern territory of the Rocky Mountain district of Northern Canada. While there he became a Christian and later entered the Christian ministry.
In 20 years he has led four great churches as pastor and leader. While in Hamilton, O., he organized what later proved to be the largest men's Bible class in three states, with an average attendance each Sunday of 1,500 men. At Youngstown, O., he led in the development of the new Baptist Temple, where the "S. R. O." sign was frequently hung out.
He has been pastor of the Baptist Temple at Rochester, N. Y., for the past four years. He is a dramatic and dynamic speaker, exceedingly popular with youth and service clubs, and is constantly pressing a verdict from his congregations after each ministerial appeal.
One newspaper columnist says of him: "He is a modern salesman of an old time faith. You cannot tell if his sermons are long or short, they are so interesting."

stitutions Are Removed

Security League Enters Protest

State Relief Director Robert L.
Johnson Makes
Ruling

(International News Service)
HARRISBURG, Oct. 9.—Protests from the Pennsylvania Security League today disclosed that State Relief Director Robert L. Johnson has ruled that workers on WPA projects who find their pay is less than they would get on direct relief may return to the dole.
The ruling, issued last Wednesday, gave WPA workers who were "off work" until Monday of this week to get back on the job. It made plain that only those whose income had suffered through transfer from relief rolls to WPA would be taken back on the dole list. Security League spokesmen branded the ruling as a "strike-breaking" move.
Relief officials who confirmed the ruling said it was only a "temporary" measure that would affect at the most only 30,000 of the 425,000 relief cases in the state.
The Security League announced plans for a meeting of 12 statewide and county organizations of unemployed and employed with WPA administrator Edward N. Jones tomorrow. The "discrimination" against single men and men with only small families, claimed to result from the new ruling, was one of the many subjects to be discussed.

Unpatriotic Boy Is Dismissed By School Officials

(International News Service)
LYNN, Mass., Oct. 9.—A boy without a country—or, at least, without sufficient patriotism to pledge allegiance to his country's flag—today became a boy without a school.
The lad is eight year old Carleton B. Nichols, Jr., expelled by unanimous vote of the local school committee because he refused to salute the American flag as prescribed for students by a recently enacted state law.
Nudism never will be popular. In that state, the richest people might look the funniest.

Naval Conference May Be Called

Great Britain May Call Conference Despite European Situation
U. S. DELEGATES WOULD ATTEND

By KINGSBURY SMITH
International News Service Staff Correspondent
(Copyright, 1935, By International News Service)

WASHINGTON, Oct. 9.—The United States has notified Great Britain of its willingness to attend a general naval conference in London before the end of this year.
This was learned today as it became known here that Britain has moved to call a general naval conference within the next three months despite the troubled European situation.
The conference will be held soon as the Japanese delegation can reach London, probably late in November.
The purpose of the conference will not be so much to seek any new naval disarmament or limitation agreement, but rather to reach an understanding that another general conference will be held next year under existing treaties. The American delegates will press actively for such an understanding.
Existing treaties, which expire the end of next year, provide that a conference shall be held this year.
The belief prevails here that in view of the Ethiopian war and the generally unsettled European political situation, it would be hopeless to expect any tangible results at a naval conference this year. The European nations, it is felt, would show little disposition to engage in any naval disarmament or even make any definite commitments concerning limitation.
However, this government shares the view with Great Britain that unless a conference is held this year it may be difficult to hold one next year under existing treaties.

Jewelry Recovered In Home At Merion

Detective Finds That Two-Year-Old Boy Is Culprit
In Case

(International News Service)
MERION, Pa., Oct. 9.—When she reported \$11,000 worth of jewelry missing from her home in Lower Merion last week, Mrs. Carroll G. Stewart informed police she was convinced it was "an inside job."
The gems, "stolen" from the toe of a satin evening slipper in which they had been hidden, were found behind a radiator in the living room.
Detectives confirmed Mrs. Stewart's charge of "an inside job" and named her two-year-old son, Donald, as the chap who "pulled it."

Monessen School Head Appointed To State Post

Dr. Samuel Fausold, Will Be
First Deputy State Superintendent

(International News Service)
HARRISBURG, Oct. 9.—Dr. Samuel Fausold, Monessen schools superintendent for the last five years, today was the choice of Superintendent of Public Instruction Lester K. Ake as his first deputy superintendent.

The new appointee, whose salary will be \$7500 a year, will serve as a deputy without portfolio upon his assumption of duties on or about November 1.

A graduate of Gettysburg college and the University of Pittsburgh, Dr. Fausold taught school and held several principalships in Westmoreland county from 1910 to 1922, when he became superintendent of Ambler schools. In 1930 he assumed his present post at Monessen.

nocence in the plot, police continued to question him.
Janus was arrested when he assertedly sought to flee with a package of bogus money left under a palm tree in a vacant lot near a studio. The package was placed under the tree in response to instructions given in the extortion letters received by the film star.
The letters received by Miss West over a period of more than a month, threatened disfigurement by acid, or death if the demands for \$1,000 were not met.

KILL THAT COLD

Give It No Chance to Survive Thru the Use of Half-way Measures!

Treat a cold to kill it, not to coddle it!
Many a cold lightly treated turns into something worse.
Hit a cold "where it lives"—in the system! That means to take an internal treatment.
Hit it with a cold medicine, not with a preparation good for all kinds of ailments.
Grove's Laxative Bromo Quinine is the treatment you want.
First of all, it is a cold tablet, made expressly for colds.
Second, it is internal medication and of fourfold effect.
Here's what it does:
First, it opens the bowels, an advisable step in the treatment of a cold.
Second, it checks the infection in the system, a vital step.
Third, it relieves the headache and fever.
Fourth, it tones the system and helps fortify against further attack.
That's the fourfold treatment a cold calls for and in Bromo Quinine you get it in the form of a single tablet.
Adopt the course of wisdom. When a cold threatens, waste no time with makeshift remedies, but go at once to your drugstore for a package of Bromo Quinine. Begin taking the tablets immediately, two at a time, every four hours.
Used in time, Bromo Quinine tablets will often stop a cold in 24 hours and that's the speed of action you want.
Bromo Quinine contains nothing harmful and is safe to take. Every drug store sells Bromo Quinine at small cost. Be sure you get what you ask for.
